

BATi's stone products are marked with logo. It is made with a special tool, carves the stone material directly and leaves only the brand logo on the finished polished material. All BATi's stone products only use 1 size and 1 type of letter characters and processed only in one method.

This brand logo is to certify the original production of BATI BALI BAGUS, PT. Warranty valid only for products with brand logo marked.

## **STONE CHARACTERISTICS**

The characteristics of natural stones are the presence of various veins, colours, shades on the same plan, as well as micro-cracks and small-holes. At the final stages of fabrication, the BATi products will go through complete procedures of control, such as mixing a proper colour resin with residues to refine the small-holes or micro-cracks. These colours have to be approved from time to time, to maintain the characteristic of high quality products while maintaining the nature of the stone.

## **WORKMANSHIP TOLLERANCE**

Because our products are artisan realizations made of natural stones, it's very likely that there are nuance of shades as well as various weight and dimension between pieces. ADVICES The utilization of a raised-up of mural -tap system, preferable without waste neither small broad, is recommended for the installation of our basins.

## **MAINTENANCE**

All BATi products have gone through treatments that are safe for natural stones. All products are impregnated with pH balance type of chemicals. It is made for stone to ensure waterproof and anti calcareous.

In order for stone to preserve its characteristic quality and brightness, it is strongly advised not to use any abrasive products containing acids. We recommend the use of pH-7 stone cleaners. For more detail in maintenance, please refer to BATi Stone-care Maintenance System.
