GROHE FOR YOUR BATHROOM

Our bathrooms have the widest range of products for all your needs. GROHE bathroom fittings unite award-winning design with the finest materials and latest industry-leading technologies.

Every collection offers a wide choice of typologies to complement the latest bathroom tapware and showers to your personal styling preferences.

FREEDOM OF CHOICE EXPERIENCE YOUR PERSONAL BATHROOM COLLECTION BY GROHE

The perfect bathroom is all about you, with every detail just as you want it. Today's bathroom is a place to realise your unique taste and express your personality, making every moment you spend there a delight. At GROHE we believe in providing a full bathroom experience, one where form perfectly matches function, and where you have the freedom to express your own design style. That is why we have created a carefully curated range of colours and finishes for all touchpoints in the bathroom.

Whatever your signature style, there is a GROHE colour to make your vision a reality, with true consistency across every element, from tapware to showers, and accessories, making your scheme totally seamless. Nothing is left to chance and the choice is entirely up to you, giving you total freedom to design a bathroom that effortlessly embodies your true self.

GROHE PVD

CRAFTSMANSHIP IN EVERY LAYER

When it comes to an exceptional design strategy, the choice of colours is vital. Yet the quality of the finish is equally important. Especially in the world of premium bathroom and kitchen solutions where surfaces must endure, highly resistant finishes are what distinguish good products from truly great ones.

Engineered for the real world

Our PVD surfaces serve as an "armour" of colour", specifically engineered to resist scratches and wear. This advanced level of surface hardness results in long-term abrasion resistance, ensuring the finish remains pristine – even in high-traffic environments.

In addition, the vacuum deposition process creates a highly uniform and strongly bonded surface layer, providing excellent coating adhesion and longterm finish stability to prevent peeling and chipping.

Designed for every home

Our PVD colours are crafted to withstand the rigours of daily life – from the constant friction of cleaning to the sudden impacts of a busy home – shielding against scratching and chipping or losing their vibrant brilliance. And the best thing is: With our versatile spectrum, we offer you complete freedom of choice. Select the

colour that suits your project and rest assured that you can create a perfectly cohesive aesthetic across every touchpoint – from taps and showers to thermostats, flush plates, and accessories.

Good to know

GROHE products are designed to deliver pure joy with water for years to come. That's why we subject our surfaces to rigorous testing to ensure they maintain their quality throughout their entire lifespan, even when exposed to common cleaning agents or repeated temperature changes of up to 70 degrees.

GROHE ESSENCE

GROHE colour will make your vision a reality. With true consistency across every element, from taps to showers right down to the details of accessories, making your scheme totally seamless.

THE SOURCE OF LIVING

Water is used for drinking and cooking all over the world. We use running water in the kitchen around 100 times every day! We take it so much for granted that we often don't think of water when we hear the word kitchen. We forget what has to work hardest in the kitchen: the kitchen tapware. A fixture that is used this frequently must naturally be durable and function perfectly every day. In addition, since kitchens are increasingly becoming living spaces, it also has to look great. That is why ergonomics, functionality, aesthetics and finishes are so important in GROHE kitchen tapware. In short, this is why we refer to GROHE in the kitchen as **The Source of Living**.

THE SOURCE OF TECHNOLOGY

High-quality materials, outstanding design and innovative technologies ensure that your GROHE tapware will last a lifetime. Our lever handles feature GROHE SilkMove® technology, making them extremely easy and precise to operate.

THE SOURCE OF STYLE

Our full range of modern 'cosmopolitan' and timeless 'contemporary' style tapware offers you exactly the right tapware to match your needs and your taste. And you will want your kitchen tapware to stay looking as good as the day it was installed. GROHE chrome resists scratches and ensures a Long Life shiny finish.

THE SOURCE OF CONVENIENCE

Many of our models are available with pull-out sprays, a convenient and time-saving feature, either for rinsing salads, vegetables or for washing greasy pans. You will be amazed at the adaptability and flexibility of our range of professional sprays – to help make your life in the kitchen as easy as possible.
